

Mr. Dan Tang, 113062,

You and your family are the targets of a large scale Federal Drug Trafficking and money laundering investigation. You and your wife have been identified as the financial providers marijuana grows in dozens of local homes. Inside sources state that you and your wife have friendly competition to see who can make the most money each month from the people below you that actually operate and maintain these grows.

It is known that several people within this organization are prepared to go to jail and they have been sending money back to China, through wire transfers as well as having people carry large sums of money on their body and transport it via airplane. At this point, this is not a safe strategy, because the Chinese Government is working with the United States in this investigation. It's all about the money to them.

Several phones of individuals involved are now being listened to and recorded. Translators have been provided, so do not think you are safe speaking in your native tongue or dialect. You can not trust anyone either, because there is/are (a) person/people providing information about the inner workings of this organization, marijuana grows, set-ups, harvesting, sales, distribution, etc...

If you are not prepared to lose all of your money, all of your restaurants, all of your houses, all of your vehicles, and the same for your family members that are involved, including your freedom and theirs, you need to contact this number, 720-690-1518 without delay. Do not use the restaurant phone, home phone, or cell phone. Go out and buy a new phone. Do not use this phone to call anyone in your group because the number will be captured and that one will be compromised.

You can, with assistance, avoid prosecution, deportation, and seizure of all of your assets. The investigation will not stop, but you will be able to limit your exposure and additional evidence gathered against you. There is a lot of information that can help you and your family, if you choose to ask for it. Or, you can try to figure it out on your own, you will stop doing something, the Feds will know that the investigation is blown, and they will take you down with what they have. The financial portion is very solid at this point.

So you understand this is not a joke, game or scam, agents followed Yue De Deng, his wife, A Ye Huang and others to the old man's house, located on Blue Grass just off county road 11 on February 4, 2008 to harvest a new crop of marijuana. Fayin "Tom" Deng was showing off a bag containing \$300000.00 in cash that he said was all profit from one months grow. He said the real money comes from growing not delivering. He is enjoying his new Porsche that he paid cash for. You have a lot of money tied up in other restaurants that are not making the money you are reporting they are making.

Don't waste too much time deciding, because this number is only good for a short time.
