

Another Mac to Track

A bright new star entered the Houston sports atmosphere recently: Country music star Mindy McCready. The *New York Daily News* reported, and McCready eventually confirmed, that the singer had a long affair with Houston's own Roger Clemens. Which was kind of surprising, since Roger has always made such a big deal about

being a family man and all. There's some confusion about whether Clemens and McCready got to the physical, makin'-sweet-monkey-love aspect of the relationship when she was 15 or actually street-legal. At any rate, McCready sounds like McGrady, so here's a scorecard to tell them apart.

Occupation	Houston Rocket	Plaything of a Houston Rocket	If you can't be a Rocket, be <i>on</i> a Rocket
Notable failures	Hasn't won a playoff series in ten years	Hasn't had a hit in six years	At least T-Mac didn't have to endure sex with Roger Clemens
Speaking too soon	When his team was up 3-1 in a first-round series in 2003, he talked of how great it was "to finally be in the second round." Where he/she will be in two years	Still losing first-round playoff series	Hawking her book <i>Polishing the Rocket: One Woman's Story of Steroids, Butt Cysts and Creepy Older Men</i>	Or, more likely, getting paid by Clemens <i>not</i> to publish <i>Polishing the Rocket</i> .
